TO:

THE RECRUITING MANAGER

ANDELA

2nd July, 2020

Dear Sir / Madam,

As a highly skilled software engineer with 4 years of experience, I am writing to express my interest in the software engineer position at Andela. My experience aligns well, as I have worked in software engineering on several projects with different clients, and I know I would make a valuable addition to Andela.

After working on several software projects, I have advanced knowledge of developing scopes, keeping projects moving, submitting finished work on time, and ensuring a seamless experience for all parties involved. Moreover, while my previous projects offered me a well-rounded-skillset, including excellent relationship building and time management skills, I excel at:

- ◆ Outlining project scopes, managing timelines, and deadlines.
- ◆ Project breakdown and budgeting
- ◆ Tracking and reporting on overall progress.
- ◆ Managing daily operations and implementation of new programs.
- ◆ Ensuring all team and project goals are met.
- ◆ Problem solving and team leadership.

In addition to development and relationship building experience, I have a passion for furthering projects that build loyalty and in turn grow the team. I would much appreciate the opportunity to contribute to your ongoing growth and continued success.

Please review my attachments for additional details regarding my expertise and achievements. Do not hesitate to reach out if you have any questions or need further clarification on my experience. I would love to chat and discuss this position in detail.

Thank you for your consideration.

Sincerely,

Muwanguzi Silas
